

NutriCart

Your Smart Health & Diet Companion

*Personalized AI Wellness, Dynamic Diet Plans, & Seamless
Notifications*

Presented by: The Hackathon Team

The Modern Health Maze

In today's fast-paced world, maintaining holistic health is a significant challenge. Many individuals struggle with the complexities of managing their diet, tracking symptoms, and keeping up with essential medical check-ups.

Complex Health Management

Navigating diverse health needs, from diet adherence to symptom tracking, often feels overwhelming and disjointed.

Time-Consuming Tracking

Manually logging meals, recording symptoms, and scheduling hospital visits demands significant time and effort.

Fragmented App Experience

Existing health and diet applications typically lack a unified platform that combines intelligent AI wellness coaching with personalized dietary guidance.

NutriCart: Your Integrated Wellness Partner

NutriCart provides a comprehensive, all-in-one solution that simplifies health management, making it accessible and personalized for every user. We bring together cutting-edge AI with practical daily support.

AI Wellness Trainer

Intelligently monitors your health, tracks symptoms, and provides proactive insights.

Personalized Diet Plans

Tailored meal plans based on your unique health data, preferences, and dietary needs.

Smart Reminders

Ensures you never miss medications or crucial doctor appointments with timely alerts.

Hospital & Wellness Finder

Locates nearby healthcare facilities and wellness centers, making access easy.

NutriCart

Seamless User Journey with NutriCart

Experience effortless health management through our intuitive, step-by-step process. NutriCart guides you from initial setup to daily wellness with ease.

1

1. Quick Sign Up

Effortlessly create your profile by entering basic personal details.

2

2. Health Questionnaire

Share your symptoms, dietary preferences, and health goals for tailored guidance.

3

3. AI-Powered Diet Plan

Receive a personalized meal plan, chosen from over 20 unique combinations, designed for your well-being.

4

4. Convenient Food Ordering

Order healthy meals directly from the app, with integrated delivery and secure payment options.

5

5. Proactive AI Notifications

Get timely reminders for medications, doctor visits, and important health insights.

6

6. Integrated Hospital Finder

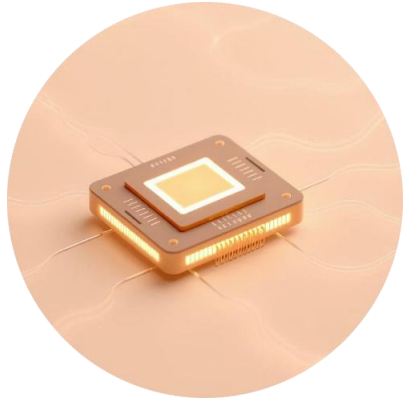

Easily locate nearby hospitals and track your appointments or orders with live updates.

NutriCart

NutriCart's Core Innovation & Technology

Our unique blend of features and robust technology sets NutriCart apart, offering an unparalleled user experience in health and diet management.

AI Wellness Trainer

Intelligent algorithms provide smart health notifications and personalized recommendations.

Personalized Diet Plans

Advanced logic generates 25+ unique diet combinations tailored to individual health conditions.

Integrated Food Ordering

Order healthy and approved meals directly through the app for ultimate convenience.

Hospital Integration

Seamlessly find and book appointments with nearby hospitals and wellness centers.

Responsive & Interactive UI

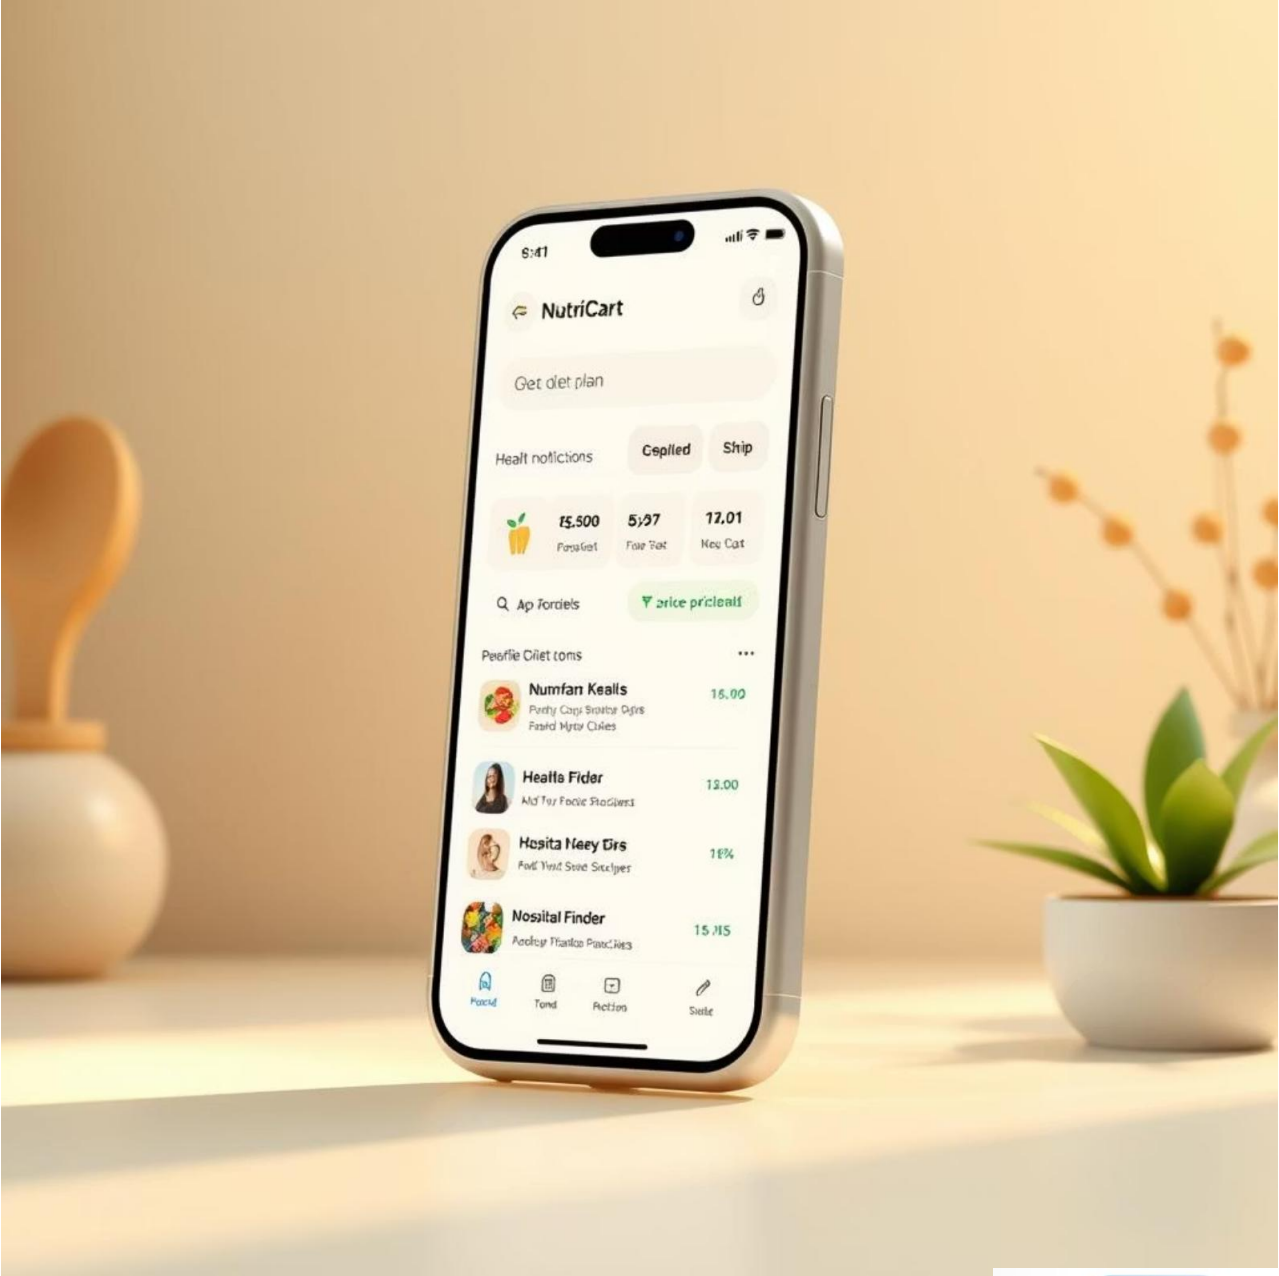

Enjoy a smooth, engaging, and fluid experience across all mobile devices with dynamic animations.

Impact & Hackathon Readiness

NutriCart is designed to empower users, offering significant benefits in their daily health journeys.

- **Simplifies Health:** Streamlines daily diet and overall health management, reducing complexity.
- **Boosts Adherence:** Significantly reduces missed medication doses and critical doctor appointments.
- **Efficient Tracking:** Provides an effective platform for monitoring and understanding personal wellness trends.
- **Fully Functional Demo:** We have a live, interactive front-end demo ready for the Hackathon, showcasing core features and user flow.

Thank You!
